Dear Amy

Enclosed are all my photos from the April 5-7 '96 Alumni Week-end. You may keep, or toss, all of these prints. I have another marked full set. Also enclosed is a copy of a card I sent Merlin Morford '45 signed by many of his friends, mostly class of '46.

The original items, including photos, are for Mrs. McKee(sp) the Librarian. I have original negatives for most of the negatives. If you would like copies or enlargements I could find the negative. (given a little time!)

I have more original photos/documents. I will send as I find them.

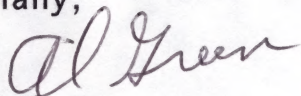

I have made laser copies, for myself, of all the original materiel I am sending you.

While in the Army in Yokohama in 1947 I had an unusual and unexpected visit with a brother and sister, Jim and Mary Nakabayashi, who attended AA when my father was principal.

On Sabbath (4-6-96) I met Howard Neely '35. I recounted, in more detail, the above meeting. He told me that he would frequently drive Mary home, about a mile upriver from the green river bridge, below AA, which was near his home. I also asked about the trail to Green River, from behind the old water tower, about the present location of the oldest building on campus "East Hall". He said he built this trail, and used it twice a day going to and from his home to school at AA until he got an old model T to use. He still owns the 160 ± acres on the river below the Academy.

If interested I could recite my above encounter/visit in more detail. Since many alumni have been in all parts of the world there are probably many stories of unusual or unexpected encounters among Alumni. Perhaps such stories might be solicited and printed in Auburn Tidings.

Cordially,
